

AI CODER™

AI Mastery Course (Age 9 and above)

THE
BRAINERY
CODE™

CODING, ROBOTICS, AI SCHOOL

Build creativity and digital confidence through interactive AI experiences that teach students to use AI as a helper, creator, and problem-solver.

What is AI CODER ?™

A future-ready course that helps your child understand, use, and create with Artificial Intelligence.

Discover how AI works through hands-on activities, creative projects, and exploration.

PICTOBLOX: Train and interact with AI using webcam detection, smart automation, and coding blocks.

Machine Learning for Kids: Design games and smart projects using machine learning tools.

Duck AI: Explore conversational AI for idea generation, and creative learning activities.

And many more exciting AI tools!
